Dear Mr. Newman:

RE: A-Tec Recycling Inc
5745 NE 17th
Des Moines, IA
EPA RCRA ID No. IA0000109827

Because you are identified in our records as being a Large Quantity Generator (LQG) of hazardous waste regulated under the Resource Conservation and Recovery Act (RCRA), we are providing you with a copy of a new EPA publication: "*Hazardous Waste Requirements for Large Quantity Generators*," (EPA 530-F-96-932, June 1996).

We would also like to take this opportunity to advise you that a new regulation becomes effective on December 6, 1996, which regulates air emissions from certain tanks, containers and surface impoundments at LQG facilities, as well as treatment, storage and/or disposal facilities. These new regulations are found at 40 Code of Federal Regulations (CFR) Part 264 Subpart CC.

To obtain a copy of these new regulations or if you have any other questions, you may call either the RCRA/Superfund/EPRCA Hotline in Washington, D.C., at 1-800-424-9346, or our Region 7 Iowa RCRA Hazardous Waste Helpline, (913) 551-7861.

Sincerely,

Harriett L. Jones, P. E.
